

Drybag Relax

Our custom-made DryBags are produced from strong, flexible tarpaulin material made from woven and coated polyester, which make the bags very strong and durable. The seams are welded by means of heatsealing resulting in a bag without stitches. The zippers are also coated, making the bag water-resistant.

Tarpaulin can be made in PMS colours in either a matt or glossy finish. Available options include shoulder straps, handles, and inside pockets. Next to several standard models, the possibilities for customized models are infinite. More info see: www.drybags.eu

Drybag Relax

High quality tarpaulin bags. Strong and flexible material. The seams are welded by heat-sealing, which makes the bag 100% waterproof.

- XL** **30 LITER**
Size: 26x64 cm
- L** **15 LITER**
Size: 22x53 cm
- M** **10 LITER**
Size: 18x48 cm
- S** **5 LITER**
Size: 16x31 cm

With this bag you don't need to worry about getting your stuff wet. The Drybag are welded by heat-sealing so there won't get any water in the bag. You can close the bag by rolling it up and closing it with a buckle. MOQ: standard colour 100. Please ask for the possibilities of your own PMS colour.
